Dangerous Goods (HAZMAT) compliance begins when a load is picked up. Use DGMobi™ to validate the documentation and placarding provided by the shipper.

Use DGMobi™ to validate the placarding every time a load is added or removed from the truck.

Multilingual Interface - English, French and Spanish (OS Driven).
ERG in digital format also Included.

DGMobi™ reduces inspection times for DG (HAMZAT) compliance from hours to minutes.
