An Ideabytes® Innovation

TDG

DGSMS®

Placard Calculator

DGSMS® – TDG Version

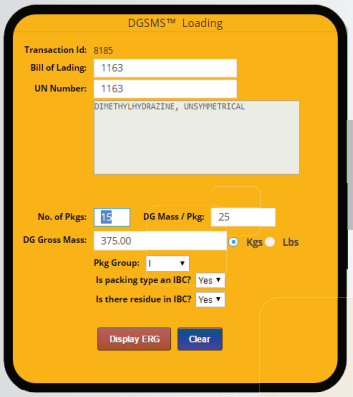

Fig: Load Item Screen

- Web based SaaS system, on private portal.
- Supports ERAP, Class 1 segregation.
- Calculates placarding for any given DG load. Primarily used by LTL carriers.
- Reefer compatibility checks.
- IBC handling for Residue.
- Calculates placarding for bulk packaging.

ADD

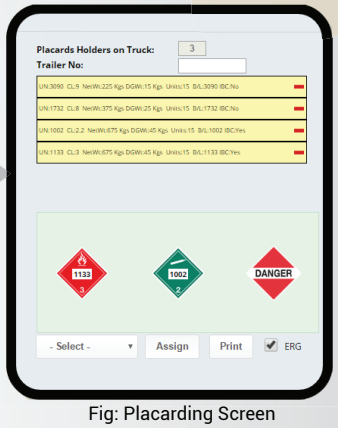

Fig: Placarding Screen

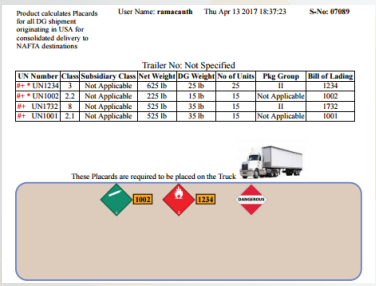

Fig: Manifest summary

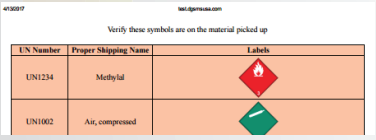

Fig: Label checklist

- Multilingual Interface - English, French, Spanish.
- Digital ERG- English, French, Spanish.
- History of transactions stored for 5 years
- Push transactions to driver's DGMobi™.
- Eliminates IT dependency.
- Works on standard Web Browsers.
- Manifest summary speeds up roadside DG inspection.
